

**Municipality of Hastings Highlands
Class Environmental Assessment
Septage Management Study**

PUBLIC INPUT INVITED

The Municipality of Hastings Highlands filed a Preliminary Project File on the public record in July 2011 which identified and evaluated various septage management approaches and candidate sites. Based on agency and public comments, the municipality wishes to refine the screening criteria to be applied in the evaluation of alternatives.

The Consultant Team will present an overview of the revised environmental factors which have been considered in the identification and evaluation of alternatives. These environmental screening criteria will then be reviewed in consultation with interested members of the general public.

A Stakeholder Workshop is scheduled for Saturday, December 3, 2011 at the Municipal Office from 10:00 a.m. to Noon and 1:00 p.m. to 3:00 p.m. If you wish to participate please contact Frank Mills.

The Municipality reserves the right to limit the number of participants.
