9. Summary of Development Proposal

Provide a complete written description of the nature of the application with details of the proposed development including but not limited to: proposed use(s), height/storeys, floor area(s), number of parking/loading spaces, landscape area, etc. If additional space needed, attach (a) separate page(s) to this Application.

- USES: Vehicle parking, boat, trailer and ATV storage
- HEIGHT: 16.5' / 5m, 1 STOREY
- FLOOR AREA: 1230 ft² / 114.3 m²
- NATURAL VEGETATION WILL NOT BE AFFECTED

10. Relief

Provide a written explanation of the nature and extent of the relief being requested from the Comprehensive Zoning Bylaw. A land use planning consultant or other qualified professional may be able to assist you:

- seeking relief because of solid bedrock face that cannot be blasted due to neighbouring drilled wells and hydro infrastructure
- thus seeking relief to expand building further into centre of lot providing additional ground absorption for runoff which in turn moves building farther from the lake.
- moving NW corner away from granite rock will cause less water and pest damage

11. Reason

Provide a written explanation of why the proposed development or use cannot comply with the Comprehensive Zoning Bylaw. How or can the proposal be modified to comply with the regulations? A land use planning consultant or other qualified professional may be able to assist you in providing an explanation:

The proposed building cannot comply due to the granite rockface although moving the building closer to the centre of the lot in line with the existing structure will help us get closer to meeting the zoning bylaw setbacks.

12. Rationale

Did you conduct a Pre-consultation with the Municipality? ☒ Yes ☐ No

If yes, please include any correspondence with the Municipality.

Tests for a Minor Variance or Permission Application

Please provide a written explanation of why/how the proposed development or use is consistent with the Provincial Policy Statement and either meets the tests of a Minor Variance or Permission Application. To see these tests, check the Minor Variance or Permission Guide. A land use planning consultant or other qualified professional may be able to assist you in providing planning rationale to support your Application. If more space needed to answer, please attach (an) additional page(s):

- The existing building was built in 1977, prior to 1979 when the Hershel township bylaws were passed.
- The small change to the proposed building is farther away from the lake and the west lot line making it closer to being compliant.
- The variance requested is minor as it will not cause negative impacts on neighbours.

13. Property/proposed development
